Item 20: Governing Publications

This schedule is governed by the following tariffs, except as otherwise provided in this tariff, by the following described tariffs and by supplements thereto or successive issues thereof:

Issuing Tariff

Title of Kind of Publication Agent No. Series National Motor Freight Classification NMF 100 Hazardous Materials
ATA 111 Scope ICC 105

RULES AND OTHER PROVISIONS WHICH GOVERN THIS TARIFF

Item 30: Scope of Operations

For scope of operations, see National Motor Freight Tariff Association, Scope Tariff ICC NMF 105, issued by National Motor Freight Traffic Association, Inc., Agent.

Item 40: Method of Determining Rates

- 1) Ascertain the zip code number assigned to the point of origin and to the point of destination.
- 2) Colorado and Wyoming Intrastate shipments:
 - a) Refer to Section 4 and locate at the top of the page the lower of the two zip codes. Locate the other zip code at the left hand side of the page. The intersection of the two zip codes provides the rate base.
- 3) All other shipments:
 - a) Refer to Section 2 and locate the origin and destination zip codes to determine the base zips and factors.
 - b) Refer to Section 3 and locate at the top of the page the base zip code that falls in the North Park Transportation Co. service area. Locate the other base zip code at the left hand side of the page. The intersection of the two base zip codes provides the rate base number. Add the factors from Section 2 to the rate base number to get the rate base.
- 4) Find the rate base number in Section 3 "Table of Class Rates and Minimum Charges". Opposite this number and under the applicable weight group and class rating will be the rate(s) that apply, subject to base rate adjustments found in Item 600.

Item 45: Payment of Charges

- 1) Charges accruing under this tariff are due and payable and shall be collected at the time an outbound prepaid shipment is tendered by the shipper or at the time an inbound collect shipment is tendered to the consignee, except when credit has been established by the shipper, consignee, or other party responsible for the charges. All charges are due at the time of delivery in the case of COD shipments, Order Notify shipments, or shipments with advance charges. In no case will credit be allowed on these types of shipments.
- 2) All charges on freight being billed to a 3rd party will be billed to the party designated by the shipper at the time of pickup. If charges are not paid by the 3rd party according to the terms of this item, all charges shall be considered prepaid and be billed to the shipper who is then responsible for all charges.
- 3) Credit will be extended to the shipper, consignee, or other party responsible for the charges only after credit has been established. After credit has been extended, freight will be picked up and delivered and the party responsible for the freight charges will be billed within 7 working days.
- 4) All charges are due within 30 days. All shipments not paid in full, within the terms of the freight bill, will be subject to full class tariff rates, and/or charges without application of discount, allowances or any other reductions. In addition, any freight tendered for delivery, and the party responsible for the freight charges has a past due account, freight may be held until the past due amounts have been paid in full.
- 5) Any shipment paid for by any check that is not honored by the bank and returned unpaid will be subject to an additional charge of **\$35.00**.
- 6) In addition to all freight charges, debtor shall be responsible for all collection fees, attorney fees, and/or court costs arising from collection efforts.

Item 50: Application of Tariff

- 1) Rates and charges in this schedule apply on all commodities in the governing classification.
- 2) On mixed shipments, any deficit weight will be rated at the **highest** applicable rate/class on any articles in the shipment.
- 3) Rates and charges in this schedule apply from points in the states of Colorado, Montana, Nebraska, South Dakota, Utah, and Wyoming to points in the Continental United States.

Failure to provide the information will nullify the preauthorization requirement.

Item 70: Application of Rates on Points not within Direct Service Area

On shipments that originate or are destined to points that are not served directly by North Park Transportation Co., rates and charges may be dictated by the originating or delivering carrier as follows.

Shipments that are not originated by NOPK, will be rated according to the originating carrier's tariffs. Additional charges for services will be charged according to the rules of this tariff.

Shipments destined to points not delivered direct by NOPK, may be subject to the charges set forth by the

delivering carriers tariffs.

Item 75: Bill of Lading Information-Limited Liability

Item 257: Application of Classes

To ensure the correct assessment of freight charges and to avoid infractions of federal and state laws, shippers must use proper commodity word descriptions on the bills of lading and shipping orders. Such descriptions must conform to those shown in the National Motor Freight Classification (STB NMF 100 Series). Appropriate abbreviated descriptions are permitted provided the NMFC item and appropriate Sub number thereof are shown. Incomplete or improper commodity descriptions accompanied by a class rating are not acceptable forms of abbreviation and shall not determine the proper classification rating applicable to such commodity. Packaging types are required for classification rating and must also be shown. If Carrier receives a bill of lading, shipping order, manifest or receipt for goods where an incomplete or improper commodity description is used or where the NMFC item number is not valid or has expired, Carrier will make every effort to classify the freight according to the information shown. In the event Carrier, in its judgment, cannot determine the proper classification rating, such commodity will be assigned a class 125 rating, and rates will be assessed on that basis.

Item 260: Equipment - Hydraulic Lift Gate Service

Where carrier is required or requested to employ mechanical loading or unloading devices, including hydraulic lifting or lowering devices, to accomplish pickup or delivery of the goods to and from the carrier's vehicle, an additional charge of **\$65.00** will be assessed upon the actual weight of the shipment or shipments for which the service is rendered at one time.

The charges for this service shall be paid by the party for whom the service is performed, or guaranteed by the shipper. The carrier is not obligated to perform such service, when suitable vehicles, equipped with such devices, and operators are not available. Service will only be rendered at such locations as are safe and accessible to the vehicle.

Authorization is not required when the only way to finalize or complete delivery is to utilize the Liftgate service.
